LinkedIn: in/pasibergman   **GitHub:** PasiBergman

Website: pasibergman.fi

I'm passionate about technology and using it to simplify our daily life while making work more fun and productive. I'm currently working as **cloud solutions architect** and **full-stack web developer** at HiQ Finland. My responsibilities vary from system development to solutions architect's and tech lead's responsibilities in projects. I'm working hands-on together with customer's or HiQ's project team. I typically develop on top of public cloud platforms (Microsoft Azure, Amazon Web Services, Google Cloud) mostly utilizing PaaS, serverless or container orchestration (Kubernetes) services.

Skills

Cloud and DevOps

| Microsoft Azure 5/5 | Amazon Web Services 4/5 | Google Cloud 3/5 | Digital Ocean 3/5 |
| Azure DevOps 5/5 | Github 4/5 | Atlassian Bitbucket 4/5 | GitLab 3/5 |
